exploration, guest speakers,  
activities galore, and a field trip!***

## ***Five Great Sessions!***

### ***June 12-16: Those Amazing Green Machines***

You'll grow your own – so dig in, plant, and water. Branch out and make the acquaintance of the plants of Wilderness Park. Find out just how useful these green machines can be as you make rope, weave a container, and make a tasty treat.

### ***June 19-23: Winged Wonders***

Wing it for a week with the birds! Explore how they sing, swim, hammer and hunt. Learn their calls. See them in action during a field trip to Wildwood Lake.

### ***June 26-30: It's a Bug's Life***

Beetles, dragonflies, mosquitoes and bees. We'll investigate interesting insects including the ones that 'bug' you. You'll dipnet for those that live in water, and maybe even try one for lunch!

### ***July 10-14: Rock On***

It's an avalanche of fun. Learn about rocks and fossils as you dig, scrape and chisel your way through the week. Search for bones in the creek and find your own treasures on a field trip to Weeping Water.

### ***July 17-21: Hop, Slither & Crawl***

How far can a frog jump? Do fish wiggle? We'll investigate the weird ways animals move and find out just what a skeleton can do.

*We provide a safe, secure environment which accepts, nurtures, supports and encourages children as they learn and grow in the outdoors.*
